

NO BUCKLES, NO GATES, NO WORRIES!

FREIGHTER
BEHIND TRUCKING SINCE 1946

AVAILABLE
SOON

AUTOHOLD

NO WORRIES!

SIMPLE

PUSH BUTTON OPERATION

PROVEN LOAD RESTRAINT TECHNOLOGY

LOW WEIGHT DESIGN

PATENT PENDING 'SWING HOOK' TECHNOLOGY

Push button operation

Utilises Freighter's Load Hold pultrusion technology

BENEFITS:

- Freighter AutoHold meets the NTC Load Restraint Guidelines for lateral load restraint for a unitised load of 1,250kg per pallet space. Higher loads possible in specific cases
- The low tare solution in automated curtains
- Reduced OH&S risks (no gates to lift, no buckles to operate)
- Faster loading and unloading – become more competitive (save around 15 minutes per drop)
- Happier, more productive drivers (reduced training and hiring costs)
- Win more contracts due to faster loading/unloading and resultant operating costs savings
