# TOUGH TIPPERS FOR TOUGH JOBS

With well-known products such as the Door Side Tipper and HVST (High Volume Side Tipper), AZMEB specialises in "Tough Tipper for Tough Jobs". Specifically, tipper trailers for the transfer of bulk products in the mining and resources industries, quarries, waste industry and other heavy duty applications. AZMEB tippers are purpose built to be fast, durable and low maintenance.

AZMEB provides creative solutions from single trailers and B-Doubles all the way up to road train combinations. If you're in the market for a tough tipper for a tough job, you're in the market for an AZMEB.

What's more, all AZMEB products are designed and manufactured locally in Australia for Australian conditions and come with the support of MaxiTRANS' national dealer and service support network.

## HIGH VOLUME SIDE TIPPER (HSVT)

The patented High Volume Side Tipper (HVST) is unique to AZMEB. It consists of a hinged upper body that effectively doubles the volumetric capacity of the trailer with minimal increase in tare weight.

It is highly productive thanks to its very fast tipping cycle, while the leak-proof bowl-shaped tub floor and full length rubber hinge, means you can carry high moisture content loads without the risk of spillage.

### Main Applications:

Refuse and low density bulk products.

### Dimensions (nominal):

|                         |                                 |
|-------------------------|---------------------------------|
| Length range:           | 6,500mm up to 13,830mm          |
| Overall height:         | 4,200mm                         |
| Cubic capacities range: | up to 85m <sup>3</sup> (single) |

Various dimensions are available upon request.

### Configuration:

In Single, B-Double and Road Train combinations. PBS configurations available.

**Warranty**  
Up to 1 Year

## DOOR SIDE TIPPER

Thanks to a single double acting hydraulic cylinder at each end of the bowl, plus large capacity hydraulic hoses and valves, AZMEB's Door Side Tipper is highly productive.

It tips quickly, even when on the move, with the door locking simply and automatically as it closes.

### Main Applications:

Blasted rock, armour rock up to 2m, iron ore, quarry materials, crushed rock, screenings, mineral sands and waste.

### Dimensions (nominal):

Length range: 5,000mm up to 8,730mm

Overall height range: 2,900mm up to 3,400mm

Cubic capacities range: 11m<sup>3</sup> up to 57m<sup>3</sup>

Various dimensions are available upon request.

### Configuration:

In Single, B-Double and Road Train combinations. PBS configurations available.

**Warranty**  
Up to 1 Year

## DOLLY

It is uncomplicated and robust, providing you with the reliability you have come to expect from AZMEB.

The Dolly's modular design also means there are a variety of available options, which can be easily configured to suit many requirements.

### Dimensions (nominal):

**Overall Length\*:** 4,372mm - 6,372mm (Tandem)  
5,018mm - 7,018mm (Tri-Axle)

**Turntable Height:** 1,200mm - 1,300mm

### Configurations:

Tandem and Tri-Axle in three-position or fixed drawbar.

**Warranty**  
Up to 2 Years

\*Overall length depends on drawbar length. Drawbar can be customised to suit the application.

## STANDARD FEATURES

The AZMEB range features an impressive list of standard inclusions that allow our customers to get the most out of their equipment.

- Fully sealed wiring harness
- Hardox abrasion resistant body
- Drum brake axles
- EBS braking
- Machine finish aluminium wheels
- Provision for road train coupling in chassis (select models only)
- Hydraulic roll over tarp with remote control system
- Compensating rocker landing feet

- Maintenance free rubber door hinge

- 5 ply rubber wear pads to chassis

- Remote control for tipper operation (High Volume Side Tipper)

- Mechanical arm with over centre lock (Door Side Tipper)

- Steel or aluminium body construction

- Suspended rubber mudguards

- Non-rated and B2K compliant hoods

- Road Train coupling

- Selection of tarp drive system

- Wheel nut indicators

- Non-slip walkway

- Water tank

## OPTIONAL EXTRAS

The customisable nature of the AZMEB range ensures its options are practically endless, allowing you to design a solution specific to your transport task. Featured below are just some of the options that can be included. Contact your nearest AZMEB Dealer to learn more.

- Side underrun protection
- Weight gauge
- Stainless steel toolboxes
- Radius guards
- Various braking systems
- Various suspension options, drum or disc
- Dual kingpins
- Additional lights in compliance with ADR
- Selection of tarp drive system
