

PRODUCT RANGE

LUSTY EMS 

THE FOREFRONT OF TIPPER TECHNOLOGY

To remain at the forefront of aluminium trailer technology, Lusty EMS has invested heavily in the things that matter most: its people, its manufacturing techniques, design and engineering skills, and the very latest materials. But all along, its greatest investment has been in listening to its customers.

Lusty EMS manufacture a wide range of high quality bulk transport equipment with specialised designs for agriculture, resources, waste management and construction. If you want the very best in semi tippers then Lusty EMS is your partner in the field.

What's more, all Lusty EMS products are designed and manufactured locally in Australia for Australian conditions and come with the support of Freightier Group's national dealer and service support network.

PERFORMANCE-BASED STANDARDS

Performance Based Standards offer an alternative regulatory system which allows heavy vehicle combinations to achieve higher productivity and safety through innovative and optimised vehicle designs.

The basic principle of PBS is matching the right vehicles to the right tasks. Our dedicated in-house PBS specialists will work with you to design a solution that will maximise your return, while ensuring the total combination remains compliant.

SOME OF THE BENEFITS OFFERED BY PBS:

- Increased gross combination mass
- Increased cubic capacity
- Improved productivity and freight efficiency
- Innovative and optimised vehicle designs for specific applications
- More flexible combination and vehicle design rules
- Improved safety
- More sustainable transportation task

CHASSIS TIPPER

The Lusty EMS Chassis Tipper is an all-round work horse that is built to withstand harsh local conditions. Only the very best materials and know how are used to create what is regarded as one of the finest quality and toughest semi tippers around.

Main Applications:

Bulk products including grain, sand and fertilisers.

Dimensions (nominal):

- Length range: 7,200mm up to 11,090mm
- Body height range: 1,840mm up to 2,400mm
- Cubic capacities range: 40m³ up to 65m³

Various dimensions are available upon request.

Configuration:

Straight and drop deck. In Single, B-Double and Road Train combinations. PBS configurations available.

Warranty
Up to
2 Years

TIP OVER AXLE (TOA) TIPPER

The Lusty EMS Tip Over Axle trailer is a versatile tipper built to perform in any bulk haulage situation. It's built to last, so it will have a long working life, along with the superior appearance and finish you'd expect from a Lusty EMS trailer.

Main Applications:

Bulk products including grain, sand and fertilisers.

Dimensions (nominal):

- Length range:** 9,800mm up to 10,370mm
- Body height range:** 1,840mm up to 2,400mm
- Cubic capacities range:** 40m³ up to 65m³

Various dimensions are available upon request.

Configuration:

Straight and drop deck. In Single, B-Double and Road Train combinations. PBS configurations available.

Warranty
Up to
2 Years

LEAD CHASSIS TIPPER

The Lusty EMS Lead Chassis Tipper is available in slider and rollback configurations, complementing your B-Double application. The tipper tub can be customised, while the use of either the slider or rollback set up provides you with the versatility to unload in a variety of settings.

Main Applications:

Bulk products including grain, sand, fertilisers and gravel.

Dimensions (nominal):

- Length range:** 8,240mm up to 9,185mm (Slider)
6,000mm up to 7,100mm (Rollback)
- Body height range:** 1,840mm up to 2,400mm
- Cubic capacities range:** 21.4m³ up to 42m³ (Slider)
29.3m³ up to 54.2m³ (Rollback)

Various dimensions are available upon request.

Configuration:

Slider or rollback. PBS configurations available.

Warranty
Up to
2 Years

STAG B-DOUBLE

The Lusty EMS Stag B-Double tipper combination is ideal for operations where improved productivity is a must. The ability to unload both trailers without unhitching, either in a jack-knife or straight-line position, makes it the perfect solution for dual-purpose use.

Main Applications:

Bulk products including grain, sand, fertilisers and gravel.

Key Specifications (nominal):

- Length range:** To suit 26m routes
- Body height range:** 1,840mm up to 2,400mm
- Cubic capacities range:** 78m³ up to 85m³

Various dimensions are available upon request.

Configuration:

Medium and Heavy duty.

Warranty
Up to
2 Years

DOLLY

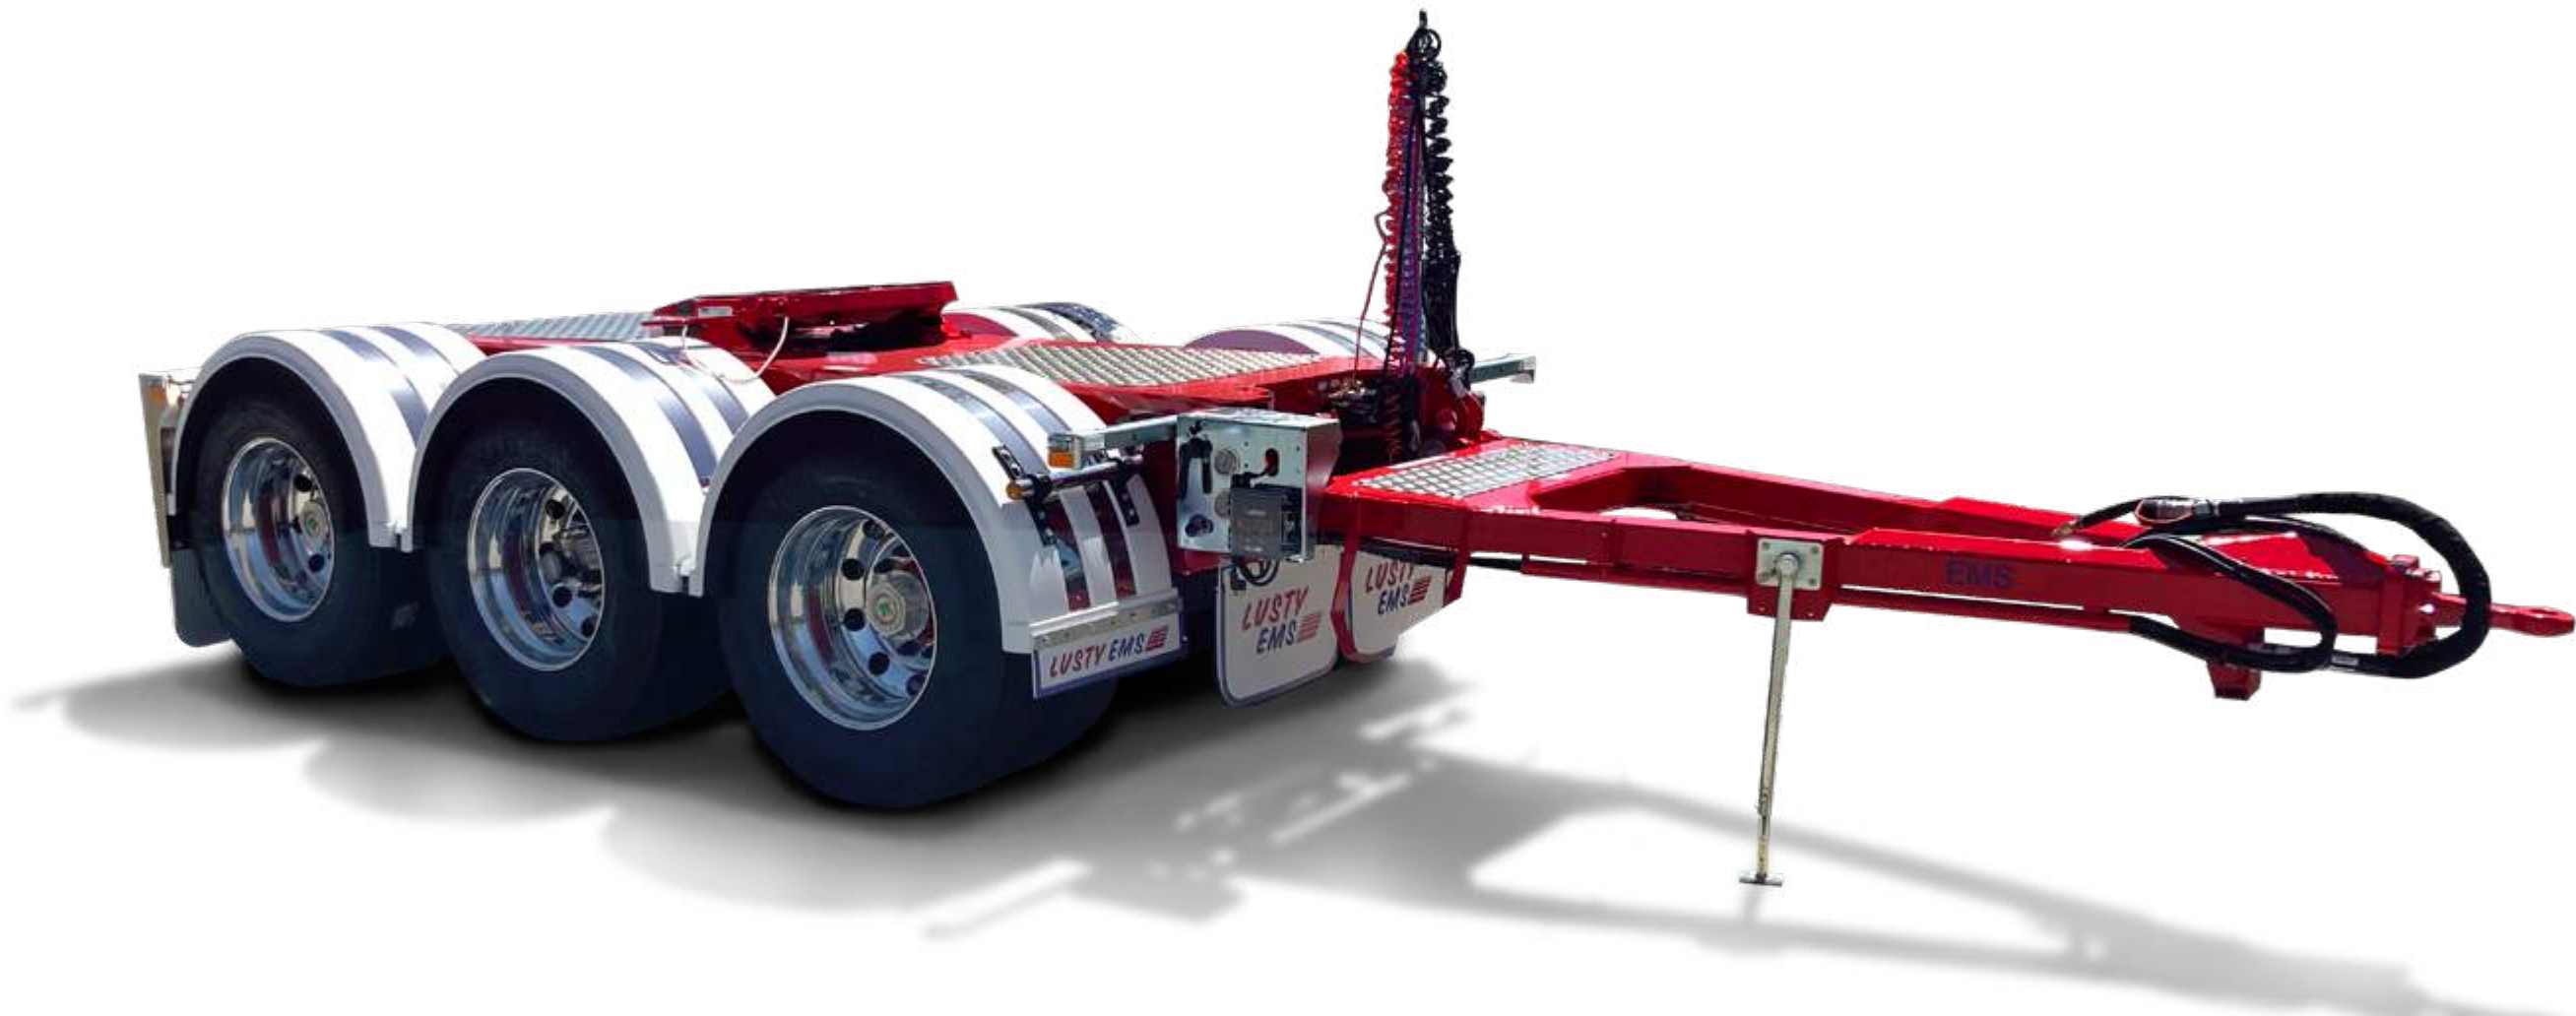

It is uncomplicated and robust, providing you with the reliability you have come to expect from Lusty EMS. The Dolly's modular design also means there are a variety of available options, which can be easily configured to suit many requirements.

Dimensions (nominal):

- Overall Length*: 5,355mm (Tandem)
6,150mm (Tri-Axle)
- Turntable Height: 1,270mm

Configurations:

Tandem and Tri-Axle in three-position pivoting or fixed drawbar.

Warranty
Up to
2 Years

*Overall length depends on drawbar length. Drawbar can be customised to suit the application.
