Freighter Group has always been dedicated to keeping our customer's trailers performing and looking their best. Expanding on this commitment, we've introduced a dedicated Truck & Trailer Wash at our Brooklyn site. Designed for fast, efficient fleet maintenance, it seamlessly fits into your service routine. Simply drop off your trailer for a wash and grab a complimentary coffee – we'll handle the clean while you enjoy a quick break.

Designed For Your Fleet Needs

Built for modern fleets

Extra-long bays (up to 42.5m) and wide wash zones (up to 3.08m) fit today's larger vehicles with ease. Floor guides and illuminated stop signs keep every wash safe, smooth and perfectly aligned.

Fast, flexible wash options

Choose from quick 10-minute rinses to full 20-minute deep cleans – saving time and keeping your fleet road-ready with minimal downtime.

Powerful, protective cleaning

Rotating brushes, foam spray, and 16 zero-angle high-pressure jets remove grime and corrosive build-up from every part of your vehicle – rims, tanks, and under chassis included, helping your fleet not only look better but stay better protected over time.

Sustainable by design

Recycled water systems and compliant waste treatment minimise environmental impact, while safety features like non-slip floors and emergency stops ensure responsible, eco-friendly operation.

Talk to us today about our in-house wash facility

Freighter Group's newest Truck & Trailer Wash is now open at our Brooklyn facility and ready to support your business. Whether you're between loads, wrapping up a long trip, or have your trailer booked in for routine servicing, the wash is a fast, reliable way to keep your vehicles in peak condition.
